SUN Language Lab - an Overview

Students from various cultures feel hard to learn English and gain proficiency. The thirst of English language learning needs some solution and English Language Lab is technological break for imparting skills in English. The SUN Language Lab offers exclusive result oriented and efficient content to enrich the English language learning process.

Breaking the traditional teaching method with the rich teaching material, the digital language lab motivates student's learning attitude and provides an interactive learning environment. The language lab is the solution and need of the hour to learn any language effectively in a short span of time. The quality of the language proficiency will be more when they learn it from the Multimedia Language Labs. By high merit of its unique wireless equipment and graded software besides its unambiguous pedagogy SUN Language Lab Solution is a stand alone program to enrich and empower English Language teaching-learning in the classroom.

SUN Language Lab and the Objectives

- To help students understand the phonology, word stress, intonation and pause patterns of English language
- To maintain good linguistic competence- through accuracy in Grammar, Pronunciation & Vocabulary
- To develop pragmatic competence, to understand the grammatical form, function & scale of formality
- To enrich the discourse competence, to prepare the learner to be able to produce contextualise written text and speech
- To aquire strategic competence to use both spoken & written language in a wide range of communication strategies
- To help the learners to migrate to a higher domain of English Communication and to acquire a globally accepted pronunciation

SUN Language Lab Software

SUN Language Lab software is graded language teaching software in five levels for In-Class-Teaching, covers learning areas of Listening, Speaking, Reading, Writing, Grammar & Vocabulary, Idiomatic Phrases, English usages, Collocations and Phrasal Verbs.

SUN Software broadly explains Phonetics with sound drills and videos illustrating the phonology. Students can acquire language skills starting from the right pronunciation of the letters of the English alphabet to advanced listening and speaking skills.

Vision

To emerge as a significant icon in the educational sector. We strive to offer excellence and quality education through our Systematic, Unique and Neoteric Technology integrated classroom solutions to meet the 21st century teaching-learning challenges.

SUN software is a blend of learning-teaching materials which includes

- Audio Lessons
- Video Lessons
- Interactive Lessons
- Activity based Lessons
- Grammar Explanations and worksheets
- Accent Neutralisation Lessons
- Writing and speaking prompts
- Group Discussion topics
- Audio/Video recording facility
- Etiquettes and Situational Conversation Lessons
- Academic Supplements-Text book based Content
- Additional Teacher Resources and Teacher Training Modules

This is for teachers to update the current trends in language teaching and to understand the different method of CLT (Communicative Language Teaching) in classrooms.

SUN English Language Lab Software has a wide range of content beyond curriculum and syllabus, for better understanding of Language and would help students to communicate in both formal and informal situations very effectively.
